**Latest German  
Technology**

**Tired of fumbling with headsets while driving? Fear of detrimental effects due to radiation from headsets?**

Now there's a convenient and safe way to talk on your phone while driving without getting the attention of the police.

German company **ANYCOM** introduces the sleek **Solar Car-Kit**. Easily mounted to your vehicle's windshield with suction cups and detachable conveniently, it provides both USB charging as well as solar charging.

Great as a speaker phone for conference calls too!

**Go Green and use less of Earth's resources!**
